

FDA - 301-827-6870

FDA your job is to protect our constitutional right to know whether the foods we purchase is exposed to radiation from cobalt-60 or electron beam gun sources. I am voicing my opposition to the FDA about their "back to the future" proposal to eliminate labeling of foods exposed to radiation.

PLEASE, PLEASE, PLEASE have more concern for the health of the people that look to you for protection from this sort of thing and take a stand for us. Don't allow people who are only interested in making money to control what you do. Keep your conscience clean so we can have faith in you that you will do the right thing and continue to have them label foods that are exposed to radiation.

You know that you and your children and grandchildren will be eating these foods. Do you want them exposed to this? Do you want your children and grandchildren to be healthy? I would think so. You love them and want the best for them so do what you know is right.

Thanking you in advance for your conscience and doing the right things.

ATTENTION: Docket No. 98N-1038. - Vote no against this Docket No. 98N-1038.

Docket #98N-1038

We vote no.
